

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Thanks you for accepting your appointment to Chair the FCC. You have assumed a critical role in the government of the "information age". Please, always keep in mind that you are acting on behalf of "The People". In your new leadership role, I urge you to clearly support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance. Have you spoken with any mothers about this issue?

The "Keep USF Fair" Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory. It is progressive.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I know as do you that it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers. Again, check with the average family.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

cc: Marlene Dortch, Secretary

Sincerely,

Dean Brassington
